

To the Polls, Republicans!

The day is close upon us, Freemen of North Carolina, when it will be your privilege, yea, your duty, to assert your rights, and give expression to your wishes, by voting for those high officers who are to administer the laws of our great and flourishing Republic, for four years ensuing the 1st of March next, when the term of office of ANDREW JACKSON, our present venerated and beloved President, will be ended, and he will retire to the peaceful shades of private life, there to receive the benedictions of a grateful people, and enjoy the peace springing from a consciousness of having devoted his entire life to his country, and his whole country.

Do you desire that the Government should continue to be conducted on those sound Republican principles laid down by the great Apostle of Democracy, Thomas Jefferson, and acted upon and carried out by Madison and by Jackson—under whose auspices our beloved country has increased in population, in wealth, and in all the elements of a great and prosperous nation, beyond any example in the history of the world—do you wish to continue these blessings for yourselves, and perpetuate them to your families and your country?—then go to the polls on Thursday, the 10th of November, and vote the DEMOCRATIC TICKET, headed by the venerable patriarch of Republicanism, the

Hon. Nat. Macon, of Warren.

Can any Democrat of North Carolina hesitate for a moment in determining whether to vote for this ticket, or for the one headed "whig"? Does any one of you know for whom he would be voting, were he to cast this "whig" ticket into the ballot-box—whether for Webster or for Harrison?—since White is virtually abandoned in North Carolina, and in nearly all the other States? Can you, will you, become party to the dark designs of the nullifying and federal leaders, by voting blindly?—by casting in a ballot, you know for whom?

But in voting the Democratic ticket, there can be no mistake, no deception: the venerable sage and patriot whose name is the head of it, and whose locks are frosty by eighty winters, is incapable of betraying you. Rally, then, Republicans of North Carolina, in all your strength! Every Democrat should go to the polls, so can get there; no one knows but his own conscience can decide the contest in favor of Democracy and the country.

OHIO ELECTIONS.

VANCE, the whig candidate, is undoubtedly elected Governor, although we have seen his precise majority stated. The members of Congress elected, so far as we have information, stand, in regard to politics, as they do now, 10 whigs and 9 democrats. Mr. Storer, the whig member from the Cincinnati district, has been beaten by his Van Buren opponent, Duncan, by about 400 majority!

And this is the residence, the home, of HARRISON, the candidate of the federal and nullifying whigs for President! Still more, surely, for a candidate before the people of the Union, to be so sadly defeated in his own district, by those who have known him longest, and know him best. Indeed, so little confidence have his neighbors in his capacity, that he has always been defeated when he came out before the people. He was defeated as a candidate for Governor; defeated for Congress; defeated for the Legislature; and sooner have his injudicious friends begged him out, and set him up for President, than the weight of his unpopularity caused the defeat of his friend Storer in Congress, by a large majority, where the last election he was elected over the prudent and chivalrous Robert T. Lytle. The whigs are shouting victory for HARRISON, on the strength of Vance's election as Governor—when it is known that the latter owes his success to his personal popularity in his own district, running considerably ahead of his party there. In the Legislature, the following is given the correct state of parties:

GEORGIA ELECTIONS.

By our last papers from Georgia, we learn that the Union ticket has been elected by a majority of 85 counties—while the Union Democratic Congressional ticket ahead of the Nullifying ticket, an average majority of 150. Five counties remain to be heard from, which will increase the Union average majority 400 or 1200. Dawson, foremost on the nullifiers ticket, will be elected, in consequence of the death of Gen. Coffee, one of the Union candidates. A letter from Macon county, Ga. in the Richmond Enquirer, says:

The Union ticket is diminished in the number of counties considerably; but is increased in others, particularly in the new counties of the Cherokee region. And in such as the votes on the Union side, opposed to Van Buren, appear to have been withheld from the Union ticket for Congress, I think it probable that the Electoral College for Van Buren will succeed by an even greater majority; as many State men will vote for that ticket, who will not vote for the Union Congressional ticket.

The Sentinel (Augusta) Office says: The Cherokee counties are worse affected (the Whigs) than we anticipated. Dawson's election is very doubtful, the balance of the ticket will be beaten from 8 to 1200 votes." Georgia is for November.

NEW JERSEY!

HUZZA FOR THE JERSEY BLUES!!

From a proof slip, with which we have been favored by the Editors of the Philadelphia Pennsylvania, we learn that Democracy is triumphant in New Jersey, the result of the general election being most glorious for the Republican party: a majority of from 12 to 14 in the Legislature; and the state certain for Van Buren in November, by a majority so decided as to silence all cavillings about the matter. On hearing from two or three federal counties, the whigs raised a shout of victory! victory! so loud, that the sound had scarcely ceased to reverberate, when intelligence of the triumph of the Democrats came upon them like the blighting winds of winter, and suddenly closed their distended jaws!

The Legislature of New Jersey is composed of a Council of 14 members, and an Assembly of 50; each county, (there being only 14 in the State) electing one member of Council, and from 1 to 5 members of Assembly, proportioned to its population. According to the most authentic returns, the result of the recent elections is as follows:

	Council.	Assembly.
Democratic	7	31
Whig	7	19
		12

Leaving a tie in the Council, and a Van Buren majority of 12 on joint ballot. According to the New York Journal of Commerce, a moderate whig paper, there are 32 Van Buren, and only 18 whig members in the Assembly.

It seems that the federal-whigs, true to their principle of filching all the power they can from the people, had contemplated (in the event of their being able to carry a majority of members) depriving the people of the right of electing their Electors! By a defect in the law of New Jersey in regard to the appointment of Electors, it would appear that the election cannot this year be held within the time prescribed by the Constitution: it will consequently be requisite for the Legislature to convene to supply the defect; and had the whigs secured a majority in that body, they would have taken the appointment of Electors into their own hands, and defrauded the people out of their right to vote for President and Vice President. But as the Democrats control the majority, the Legislature will be immediately convened, the Electoral law will be amended, and the people enabled to vote for President within the prescribed time.

ALABAMA, we have all along considered as among those Republican States in regard to whose Electoral vote there was little or no room to entertain a doubt; we have felt a confidence that she could not be seduced from her Democratic principles neither by the blandishments of nullification, nor by the corrupting appliances of bank-whiggery; we have accordingly always ranked her on the side of the Democratic candidate for the Presidency; and further developments of the sentiments of the people of that State, assure us of the correctness of our estimates.

A majority of twelve in the legislature, claimed by our party; and although the nullifiers have heretofore affected to deny this, they must now "give up the ship," as those on whom they have placed reliance, are dropping off like leaves in the autumn.

Maj. Jesse Beene, Senator from Dallas county, has come out, and announced his determination to sustain the Democratic ticket, Judge White having disappointed the hopes of his democratic friends, by throwing himself into the embraces of the nullifiers and federal whigs. Maj. Beene consequently supports Mr. Van Buren.

And Parham N. Booker, Esq. whom the nullifiers laid claim to, has disclaimed all fellowship with them or their party.

MISSOURI. Below we subjoin the official aggregate of the votes given at the late elections in Missouri; by which it will be seen that whiggery and nullification have given their death kick in that Republican State—Boggs, the democratic Van Buren candidate, having been elected Governor by a majority of 1260 over Gen. Ashley, the most popular man in the State; Cannon, Van Buren, elected Lt. Governor by 2,833 over Jones, whig; Harrison and Miller, Van Buren, elected to Congress over Birch and Owens, whigs, by from five to six thousand votes. What will the nullifying-whigs now say about Missouri not sustaining her able and fearless Senator, THOMAS H. BENTON? "Well done thou good and faithful servant," has been their grateful salutation to him.

	Whig.
Governor: Boggs, 14,317	Ashley, 13,057
Lt. Gov.: Cannon, 13,042	Jones, 10,210
Congress: Harrison, 16,470	Birch, 10,007
Miller, 15,120	Owens, 7,583
Strother, 1,477	Wetmore, 280

FIRE IN NEWBURN.—We learn from the Newbern Sentinel, that the tan-yard of Moses W. Jarvis, Esq. of that town, was burned down on the 12th inst. It is believed the fire was entirely accidental.

CONGRESSIONAL GLOBE.—We wish to call the attention of our Democratic readers to the Prospectus of the Congressional Globe and Appendix, which will be found in another column of this week's Standard. THE GLOBE is too well known throughout the Union, as the official Paper at Washington, as the able advocate of the principles of the Democratic party, and the fearless champion of the people's rights, to need from us any recommendation of its claims to the patronage of REPUBLICANS wherever the English language is spoken. No prominent politician of the Democratic faith, should be without it. And it affords the cheapest reading, in the form now proposed, (\$1 during the session) of any publication in the country.

Subscriptions will be received at the office of the STANDARD.

The Plot Thickens!

Judge WHITE is now virtually (although secretly) abandoned by the combined party of nullifiers, federalists and bank-whigs in North Carolina! We speak advisedly: Conclaves have been held in this city, by the leaders—secret conferences have taken place between them—party antipathies have been buried for the moment—and the conflicting, antagonist principles of the parties to the plot, have been apparently reconciled for the occasion: the result of which is—the gentlemen composing what is called the "whig" ticket, if elected, are to be instructed to vote for HARRISON!

Finding it entirely impracticable to concentrate even a respectable vote for Judge White in more than three or four States, the "new born whigs," like rats that flee from a sinking ship, have dropped him, and sought refuge in the old gag-law federalist, and the odious emancipationist, Harrison! They have, however, determined to continue to use Judge White's name as a bait for those Republicans in this State who cannot be made to swallow Harrison.

This is the plot, and such the fraud, by which it is sought to trick the Republicans of North Carolina into the support of a candidate whose principles are odious to them, and whose notorious want of capacity would render his election a disgrace to the Presidential Chair of a great nation! Will the Democrats of North Carolina countenance so base a fraud on their rights and privileges? No, No! We will answer for them, that they will spurn the corrupt proposition.

BEWARE, REPUBLICANS!—At the August elections, the federalists and nullifiers carried their Governor by the grossest deception and chicanery—and they are prepared to play the same game upon you week after next. We would caution you to be aware of their tricks. Listen not to the deceptive rumors they may put afloat on the eve of the election.

As the contest is likely to be close, every vote is of importance; then let every Democrat walk up to the polls, in despite of the clamor and brow-beating of the nullifiers and federalists, and deposit a Democratic ticket in the ballot-box. Beware of receiving tickets from the hands of your political enemies, for they are determined to practise every species of trick and fraud on you. Examine your printed tickets, and see if the names of Nat. Macon, Robert Love, John Wilkings, and the other Democratic Candidates, are all on; there should be fifteen names voted for; the right names will be found in the Standard.

Do this, Republicans—be vigilant, be firm, and all go to the polls, and you must and will come off victorious.

Heads up, Republicans.

We have every thing to cheer us on to victory, at the election this day two weeks. Letters and verbal information have reached us from all parts of the State, assuring that the people are determined to carry the State for Democracy and the Constitution. A letter informs, that in one county, there will be 300 or 400 votes more for the Democratic Electoral ticket, than were given to Gov. Spaight. In another county, a well-informed correspondent says, that the votes will be nearly equally divided, where Gen. Dudley received about 300 majority! And in numerous other counties, we are assured that the Democratic vote in November will exceed that in August, by from 100 to 300!

Let every Democrat go to the polls, then, and put in a ballot with the names of Nat. Macon and his associates on it—and the triumph will be ours!

MR. MACON.

Mortified and chagrined that this venerable Father of Democracy should, in the latter days of his life, still cling to those pure principles of Republicanism which animated him in the morning of his political career—and that he should lend his revered name to aid the Democratic party of the present day, who are striving to perpetuate those principles which he and others bequeathed to them;—the federalists and nullifiers are splitting venom at him, and attempting to blacken his fame and traduce his character, hoping to lessen the influence of his example in behalf of the Republican cause. A white-whig paper in Tennessee thus assails Mr. Macon: "General Nat. Macon, who heads the Van Buren electoral ticket in North Carolina, is a secessionist; allowing any State to secede from the Union when she pleases—thus placing our institutions and our liberties at the mercy of every demagogue who can make himself popular enough to control the vote of a State."

The above charge is as unfounded as it is malignant. Mr. Macon is not a secessionist, but is opposed to Nullification and all its heresies. He is a States' Rights Unionist—a Jeffersonian Democrat.—These calumnies cannot tarnish Mr. Macon's bright fame in North Carolina, but may deceive Republicans abroad.

BALTIMORE CITY.—On Monday, 17th inst. an election took place in Baltimore for Mayor and City Councilmen. Gen. Samuel Smith, the incumbent of the office, was re-elected over Mr. Small, whig, and formerly Mayor, by a majority of 639 votes: Smith 5,283, Small 4,651. In the 1st Branch of the Council, the Democrats have elected 14 members, the whigs 10; and in the 2d Branch, 8 members, to the whigs 4.

So it will be seen that the Republicans of the Monumental City, continue true to their principles, their party and their country.

WILMINGTON, Delaware: At the election for charter officers, 1st Tuesday in this month, all the democratic Van Buren candidates were elected by larger majorities than the party ever obtained before.

MARYLAND.—John S. Selman, one of the Van Buren senatorial Electors from Ann Arundell county, who was sick when the other Electors first met at Annapolis, has been persuaded by the 21 federal whig Electors, to meet them in convention.

Mr. Selman is a singular and timid man, and has permitted himself to be frightened by the whig bug-bears. But as it required two more of the "glorious 19" democratic electors to make a quorum (24) of the college, the whigs tampered with Messrs. Duvall of Montgomery, and Linthicum of Baltimore county, to persuade them to go into the college; but they were made of too stern stuff to become the tools of whiggery, and have come out with publications, announcing their determination never to meet the whig electors, unless they can have an assurance that measures will be adopted to amend the Constitution of the State, so as to expunge its present rotten-borough and anti-republican features, and give the people a Republican form of government. All the other Democratic Electors are equally firm; so that there can be no Senate. Yet the "ignoble 21" electors still remain at Annapolis, at an expense of \$4 ahead per day to the State, if the State should ever make them an allowance, which is very problematical, as no Legislature can assemble until the Constitution shall have been amended—and under a new order of things, when the people shall fairly be represented, the Republicans will command a majority, and will not be like to pay the "ignoble 21" minority electors for stubbornly resisting the interests and wishes of a majority of the people.

The Republicans of Maryland are determined on calling a Convention to reform the intolerable defects in the old constitution of their state: the federal whigs of course will strive to perpetuate the present misrule, because upon an equitable principle of representation, they would lose their present ill-gotten power and patronage—to which it is the instinct of their party to cling as closely as to its life-blood.

We think our correspondent from Stokes must feel satisfied, on reflection, that his printed communication is entirely too long for insertion in our paper at this particular juncture. Just on the eve of a vitally important election, the great majority of our readers call for, as the interests of the Democratic party demand, the appropriation of our entire columns to such articles as are characterized by pith and brevity, rather than to elaborated productions mainly calculated for local effect.—We trust our friend circulated a sufficient number of his printed sheets, to effect the end desired—a counteraction of the calumnies current in his county and district.—It would be an unpardonable sacrifice of time and ammunition, for us to discharge four or five columns of the Standard at a petty "scout" of the enemy, while the main body of his forces were making desperate onsets upon our defences.

THE LEGISLATURE will assemble in this city on Monday the 21st day of November. And as the "whig" papers are sounding the alarm, with the view of rallying all their members at the seat of government on the first day, in order to carry the Speakers of both houses by a coup-de-main—it would be well enough for the Republican members to take the hint, and rally too, on or before the first day of the session, in order that there may be fair play in the election of presiding officers.

Should all the members be present, we cannot doubt but that the former Speakers of both Houses will be re-elected; for it has been seen that Mr. Barnett, the Senator from Person, has expressed a preference for Mr. MOSELEY—and it is known that Mr. Gales, one of the Commoners from Wake, pledged himself, before the election, to vote for Mr. HAYWOOD. Indeed, we can see no good reason for making the election of these officers a party question: it is admitted, that better Speakers could not be selected.

The idea of the Republican members desiring to bring on the election of Senator the first day, seems to have troubled the noddies of the whigs alone—the Republicans never dreamed of such a movement.

"LINCOLN REPUBLICAN."—We have received the Prospectus of a new political Journal, to be published at Lincoln, in this state, by L. E. Thompson Esq; and to advocate the claims of the Democratic candidates, Martin Van Buren, and Richard M. Johnson, to the Presidency and Vice Presidency.

A Jeffersonian Republican Paper is very much needed in that (Maj. Conner's) District; and we cannot doubt, but what the rich and well-populated counties composing it will extend a liberal patronage to a well conducted Journal.

CREEK INDIANS.—From the Florence (Alabama) Gazette of the 6th inst. we learn that a party of emigrating Creek Indians (2,500) passed through this county, last week on their way to the far west. They were under the command of Capt. John Martin of Montgomery.

Another party of 4,000 in number have lately passed on the other side of the river, journeying west.

There is now we believe, not an Indian left in the nation, with the exception of the families of those warriors, who volunteered their services against the Seminoles, and are at this time in Florida, prosecuting with vigor the campaign against Osceola and his tribe.

CHURCHES IN NEW YORK.—The N. York Sunday Morning News, contains a list of Churches in that city, amounting to 143 in all. The different denominations have Churches as follows:

Presbyterians, 36	Lutherans, 2
Episcopians, 25	Universalists, 2
Baptists, 20	Unitarians, 2
Methodists, 20	Independents, 2
Reformed Dutch, 13	Jews, 3

MILTON DINNER.

In the Milton Spectator of the 18th inst. we find letters from His Excellency Gov. Spaight, Wm. H. Haywood, Jr. Esq. Hon. Henry W. Conner, of this state; and Messrs. W. C. Rives, Richard M. Logan, and Thos. A. Averett, of Virginia; expressing their regret at not being able to attend the Democratic Festival given complimentary to the Hon. BEDFORD BROWN, North Carolina's faithful, vigilant, and fearless representative in the United States Senate. Below we give the sentiments transmitted by these gentlemen, the crowded state of our columns not permitting us to give their letters.

Gov. SPAIGHT'S TOAST.

The Union of the States.—The palladium of our liberties—the star that illumines the hopes of the friends of liberty throughout the world. Its preservation depends upon the observance of the Republican doctrine, that each government, Federal and State, is to be limited within its own sphere of action—neither tributary to the other.

MR. HAYWOOD'S TOAST.

Gen. Jackson's Administration.—Why should the people desire to change its policy?—To seek a remedy when there is no disease, is itself a distemper.

MR. RIVES' TOAST.

The virtue, intelligence, and firmness of the people.—The sure, as they are the only, foundations of Republican Government.

MR. LOGAN'S TOAST.

North Carolina.—Long distinguished for her uniform support of the principles of '98-'99, may she not be seduced from the true faith by a combination of Federalists, Nullifiers, and political Apostates.

MR. AVERETT'S TOAST.

Success to the party, and the candidate of the party, opposed to Federalism and Nullification; and down with them who seek to "divide and conquer."

VIRGINIA.

"Old Virginia never tires," in the Republican cause. Our accounts from the neighborhood as well as distant counties, are most cheering. We hear from the North-east Neck, that the people are rejecting the uncommited half White, half Harrison, half horse, half alligator ticket, with disdain. They wish to have some lot and part in the election of their Chief Magistrate—and have no idea of transferring their own rights of suffrage, with their eyes and hands, bound to a parcel of Electors, who have never avowed their own selection, and whose voice is to be ultimately governed by circumstances, their own interests perhaps, or the intrigues of their managers.

Such tidings as the following reach us from all quarters—(except from such Federal counties as Loudoun, Augusta, Ohio, &c.)—Richmond Enquirer.

Extract of a letter from Monongalia county.

"We will carry the Van 'Ticket in triumph in all the counties here, but Ohio—Marshall by 100 votes majority."

FROM THE ATHENS (TENNESSEE) REPUBLICAN.

"The People's Candidate."—This is the title with which Judge White was dubbed by the caucus of eleven, who made him a candidate one night in Washington City. Since that memorable event, he has often been called "the People's Candidate" by persons who were ignorant of the origin of the title. Judge White became a candidate at the suggestion and request of eleven members of Congress—and is their candidate. The people never had directed these men "to bring out the Judge;" but, whether they did so at the request of John Bell or of Judge White himself, we suppose the public will never learn. He was not a candidate, until they in their own language, "brought him out." They knew that they were not acting in obedience to any expressed will of the people, and no doubt, feared that they might be censured for their conduct.

THE PANIC.

The Nova Scotia whig panic makers may hang their harps upon the willows. The banks of Kentucky are safe, and the people are undismayed. Specie is returning to this point, and before the close of the present month an amount fully equal to that withdrawn will have been returned here from the Land Offices. We make this statement on authority entirely satisfactory to us.

This news will be wormwood to the bank whigs, but we cannot help it. The Treasury Circular, though it has produced a temporary demand for specie, will ultimately increase the amount in the west and improve the currency, by banishing depreciated paper from circulation.

Dr. PRATT.

Artificial Nipple Shield.

FOR the prevention and cure of Sore Nipples. The following highly respected certificates are deemed a sufficient recommendation for those who are afflicted in this manner, to try them.

From Doctor Wm. P. Dewees, 1st Professor of Obstetrics, in the Medical University of Philadelphia:

Doct. ELNAH PRATT:

DEAR SIR: As I feel it a matter of much public importance, to possess a means of lessening the terrible sufferings from sore Nipples, I have much pleasure in being able to say, that the "Shield" you offer for the preventing and the cure of this malady, is better adapted to the purpose than any I have heretofore seen. In the two or three instances I have known them to be used, much satisfaction has been expressed, and I have no hesitation to believe it will generally succeed: I am so well persuaded of this, at this moment, that I cannot forbear to express a wish that our city, through the various Apothecaries, may be supplied with them. I am yours, &c.

M. P. DEWEES, M. D.
Philadelphia, Jan. 13, 1834.

From Dr. Thomas Sewall, Professor of Anatomy and Physiology, Columbia College, District of Columbia:

Washington City, 4th Feb., 1834.

Having examined the Patent newly invented Nipple Shields, and witnessed its practical application, among my patients, I take great pleasure in recommending it as a decidedly superior to anything previously known. It constitutes a perfect remedy for that distressing malady, Sore Nipples; a disease which so frequently afflicts young women.
